

NPST PUP JOINT

Shreeraj Industries offers NPST (Non-pressure Seal Thread) Pups in size 1"-3" Fig 602 and 1502. The NPST connection offers a light weight pup capable of 6000 - 15000 CWP with a connection that isolates the thread from fluid's flowpath. This connection is permanent and is well suited to abrasive applications where a welded connection is not desirable.

Available in non-pressure seal design to suit virtually all oilfield applications

Size Range:	1" - 3"
Pressure Rating:	6000 - 15000 PSI
Connections:	Fig. 602, 1502
Length offered:	1', 2', 3', 4', 5', 6', 8', 10', 12', 20'

Recommended Service: Pressure well servicing lines, fracturing lines, testing lines, cementing and circulating lines, and other well service and stimulation application.
